# Stambogsregler

## **Definition på engelsk fuldblodshest**

Engelsk fuldblodshest er en hest som er registreret i en godkendt fuldblodstambog i det land, hvor den er født. Denne stambog skal være godkendt af The International Stud Book Committee på det tidspunkt, hvor hesten blev indført i det officielle stambogsregister.

## **1. Afstammingskrav for engelsk fuldblodshest**

1.1 For at være kvalificeret til at være registreret som en engelsk fuldblodshest skal følgende krav være opfyldt:

Hesten skal være et produkt af en bedækning mellem en hingst og en hoppe, som begge er stambogsført i en godkendt stambog for engelske fuldblodsheste, eller hvor en eller begge forældre er flyttet fra et Non-Thoroughbred register iht. Article 13, paragraf 4.1 «International Agreement on Breeding, Racing and Wagering.»

1.2 Et føl kan blive opgraderet fra B-registret "øvrige engelske fuldblodsheste", som er udarbejdet af Dansk Galop, hvis følgende kriterier er opfyldt:

- a) Hesten kan vise otte sammenhængende stambogsførte led med "Fuldblodsheste" inklusive det led, hvor den selv er afkom.
- b) Hesten kan ved sin afstamning og ud fra løbsresultater i løb for fuldblodsheste blive berettiget til optagelse i Stambogen.
- c) Opgraderingen er énstemmig godkendt af the International Stud Book Committee.

1.3 Heste, som ikke er kvalificeret til å blive optaget i Dansk Galops stambog kan blive registreret i Dansk Galops B-register for "øvrige engelske fuldblodsheste".

## *Diskvalificering*

*Ændring af det arvelige genom til en potentiel (fremtidig) eller registreret fuldblodshest gennem dennes undfangelse, drægtighed eller på andet tidspunkt i dens eksistens, vil resultere i, at hesten mister sin status som fuldblodshest.*

## **2. Registrering av avlshoppe / avlshingst**

### **2.1 Identitetsbevis**

For at kunne indføres i Dansk Galops Stambog som avlsdyr kræves fuldstændig bevis for avlshoppens, -hingstens afstamning og identitet;

a) ved at ejer udfylder registreringsskema for avlshoppe eller avlshingst med hestens indregistrerede navn, farve, alder, afstamning, aftegn, nuværende ejer samt hestens historie.

b) ved at kunne følge hesten gennem alle ejerskifter siden fødslen,

c) ved at fastslå DNA-profilen på hesten. Dette gælder alle avlsdyr og fordrer, at veterinær tager hårrødder fra hestens hale. Undtaget er avlshopper, som allerede er blevet DNA-testet.

Hvis der er grund til tvivl, eller testen er ufuldstændig, skal ny hårprøve tages af avlshoppen.

Ved import af hest som er født i udlandet, skal et eksportcertifikat, som identificerer hesten, sendes fra Stambogsmyndigheden i det land, som hesten eksporteres fra. For heste, som er på besøg i Danmark og bliver i Danmark i kortere tid end ni måneder, er det ikke nødvendigt at indhente eksportcertifikat.

d) Ejer, som sender en hingst eller hoppe til udlandet med avlsformål, skal på forhånd informere Dansk Galop herom.

e) Ejer skal give relevante informationer og anmode Dansk Galop sende en Breeding Clearance Notification (BCN) via e-mail til Stambogsorganisationen i det land, som hesten udføres til. Dansk Galop sender samtidig hestens DNA-profil, og hvis hoppen er drægtig, også DNA-profil på den hingst, som hoppen er bedækket ved.

En kopi af BCN skal leveres til ejer. Denne kopi skal lægges i hestens pas.

f) Før hesten returnerer til Danmark, skal ejer af hesten ansøge Stambogsorganisationen i det land, hvor hesten har opholdt sig midlertidigt om, at en clearance sendes til Dansk Galop.

g) En clearance er gyldig i:

- Én bedækningssæson (max 9 måneder)
- Én destination (ét land)

h) Hvis ovennævnte instrukser ikke bliver fulgt, vil det medføre, at eksportcertifikater skal sendes således, at man kan spore hestens bevægelser.

## 2.2 Avlshingst

### Registrering til brug for godkendt hingst til avlsbrug

Ejer af hingst, som skal benyttes som avlshingst, skal hvert år og i god tid ansøge om registrering af hingsten i avlen. Det skal foreligge negative CEM- og EVA-prøver.

### Bedækningslister

Bedækningslister udstedes af Dansk Galop for hver avlshingst, når denne er godkendt og registreret til avl.

Hingstejer/Hingsteholder forpligter sig til:

a) At oplyse detaljer vedrørende enhver avlshoppe, som bliver bedækket af denne ejers hingst i løbet af sæsonen. Hvis en hoppe bliver bedækket af mere end én hingst, skal samtlige bedækninger oplyses på en separat bedækningsseddel for hver hingst.

b) At udstede en kopi af Bedækningsattest til ejerne af de hopper, som er bedækket, når bedækningsafgiften er betalt.

c) At sende Dansk Galop kopi af hver bedækningsattest, når bedækningssæsonen er afsluttet og senest den 1. oktober i bedækningsåret.

### 3. Opdrætter

Opdrætter er den fysiske eller juridiske person, som helt eller delvis ejer eller har eiet en registreret hoppe som anvendes eller har været anvendt i fulblodsavl. Som opdrætter anses hoppens registrerede ejer/lejer ved føllets fødsel.

### 4. Følregistrering

#### 4.1 Krav ved registrering af føl:

a) Bedækningsattest underskrevet af hingstens ejer, som bekræfter første og sidste dato for bedækning samt korrekt identitet af avlshoppen, og at hoppen ble bedækket på naturlig måde, og at der ikke blev foretaget kunstig insemination, at samme hoppe gennemgik en naturlig drægtighed og at folingen skete ud af den samme hoppe, som blev bedækket. Føl, som er et resultat af kunstig insemination, embryo overførsel eller transplantation, kloning eller al anden form for genetisk manipulation, vil ikke være berettiget indført i en af Den Internationale Stambogskomiteé godkendte stambog for engelsk fuldblod.

b) Fødselsanmeldelse underskrevet af opdrætter, som angiver detaljer om føllet herunder farve, køn, fødselsdato og fødested. I de tilfælde, hvor der ikke er noget levende afkom, skal fødselsanmeldelsen alligevel udfyldes med oplysninger om hvorvidt hoppen var gold, har resorberet, kastet, eller at føllet var dødfødt eller døde på et senere tidspunkt. Hvis disse oplysninger ikke bliver givet, vil resultatet "ingen oplysninger" fremkomme under hoppens afkom i stambogen og betyde, at stambogen bliver ufuldstændig.

c) Et stambogscertifikat med et identifikationsskema som oplyser om føllets forældre, farve, køn og fødselsdato udfyldt af opdrætter, samt en grafisk beskrivelse af afkommet (markings) udfyldt og underskrevet af veterinær.

*Beskrivelse af føllets aftegn (markings) skal foretages mens føllet går sammen med moderen.*

d) Veterinær tager hår- eller blodprøve og sender til Laboratoriet for Heste for at fastslå hestens DNA-profil, om nødvendigt også af føllets mor og far for at kunne foretage afstammingskontrol. Veterinæren microchipper desuden føllet.

e) Indbetale registreringsgebyret.

Ovennævnte krav gælder registrering af afkom i fødselsåret.

Senere indregistreringer: For afkom, som søges registreret efter 31.12. i fødselsåret, vil i tillæg til forannævnte krav også gælde, at tillægsafgiften for sén registrering skal indbetales.

*Indregistrering vil ikke blive accepteret for afkom, som er fire år eller ældre.*

#### 4.2 Kvalifikationskrav

a) Afkom er ikke kvalificeret til at blive indregistreret i Dansk Stambog for Fuldblod med mindre,

at afkommet er et resultat af en naturlig bedækning, hvilket indebærer, at hingsten fysisk bestiger en hoppe. Denne naturlige bedækning omfatter også umiddelbar opfølgning af hingstens bedækning ved indføring af en del af den sæd, som udstødes af samme hingst under bedækningen af samme hoppe.

b) Den hoppe, hvori føllet blev undfanget, gennemgik en naturlig drægtighed og forløsning. Intet føl, som er et resultat af kunstig insemination, embryo-overførsel eller transplantation, kloning eller al anden form for genetisk manipulering, vil være berettiget indført i en af The International Stud Book Committee godkendt stambog for engelsk fuldblod.

4.3 Farve og drægtighedsperiode: Selvom fuldstændige oplysninger om et føl er indgivet til Dansk Galop, og at føllet iht. DNA-profilen er afkom av de oplyste forældre, kan ansøgning om registrering af føllet blive afvist. Dette gælder, hvis den oplyste farve på føllet er uforenelig med de farver, som er registreret på de angivne forældre, eller hvis den konstaterede drægtighedsperiode for moderen afviger betydeligt fra generel accepteret standard.

## **5. Hestepas**

5.1 Pas bliver udstedt på alle føl, som er født i Danmark og registreret hos Dansk Galop. Passet, som er Dansk Galops ejendom skal altid følge hesten. Det påligger ejeren, opdrætteren og træneren at kontrollere identiteten på alle heste, som kommer i deres varetægt, samt underskrive den aktuelle side i passet for at bekræfte hestens rette identitet. Enhver tvivl om korrekt identitet skal straks rapporteres til Dansk Galop.

5.2 Hvis pas mistes, skal dette straks rapporteres til Dansk Galop.

5.3 Pas er Dansk Galops ejendom og skal indleveres, når Dansk Galop forlanger dette.

## **6. DNA**

6.1 DNA Laboratoriet Heste, Them, Danmark står for DNA-test og afstammingskontrol for Dansk Galop.

6.2 DNA-test af en hest er ikke godkendt medmindre, at den er blevet udført af ovennævnte laboratorium baseret på hår- eller blodprøve taget forskriftsmæssigt og oversendt til laboratoriet, eller der allerede foreligger DNA-test godkendt af tilsvarende godkendt laboratorium i udlandet.

DNA-test godkendt af et udenlandsk laboratorium accepteres:

a) Hvis den aktuelle hest døde, før DNA-test blev foretaget i Norge, og for at bekræfte DNA-profilen til en importeret avlshoppe eller avlshingst (pkt. 2.1c).

b) Hvis det er for at fastslå ophavet til en moderlivsimport eller ved DNA-test av avlshingst, (pkt. 4.1d), forudsat at korrekt DNA-profil er konstateret, og at Norsk Galopp efter den modtagne information kan godkende den.

## **7. Navngivning**

7.1. Ved ansøgning om navn skal oplyses farve, køn og alder tillige med navnet til far og mor. Ansøgningen kan ikke imødekommes medmindre, at hesten opfylder betingelserne for

indregistrering i Dansk Stambog for Fuldblod eller i tilsvarende stambog, som er godkendt af The International Stud Book Committee. Ved navneforslag på et andet sprog end dansk, kan oversættelse blive forlangt. Ved ansøgning af navn på danskfødt hest, skal navnet tillige godkendes af Svensk og Norsk Galopp.

7.2 For at kunne starte i løb skal en hest være navngivet. En hest kan ikke starterklæres til løb eller anvendes til avl medmindre, at den er navngivet.

7.3 Kriterierne for at få godkendt et tidligere anvendt hestnavn, er for:

- a) Avlshingst: 15 år efter død eller 15 år efter sidste gang hingsten har bedækket en hoppe. (Det som indtræffer først), eller ved fyldte 35. år, hvis tidspunkt for død ikke er blevet indrapporteret.
- b) Avlshoppe: 10 år efter død eller 10 år efter sidste gang den blev bedækket eller folet, eller ved fyldte 25. år. (Det som indtræffer først), eller ved fyldte 30. år, hvis tidspunkt for død ikke er blevet indrapporteret.
- c) Andre heste: 5 år efter død eller ved fyldte 20. år, (det som indtræffer først), hvis tidspunkt for død ikke er blevet meddelt Dansk Galop. En undtagelse kan gøres, hvis hesten aldrig har startet og navnet søges til genanvendelse af samme ansøger.

7.4 Følgende restriktioner gælder ved navngivning

En hest kan ikke gives navn som:

- a) Er indregistreret på international liste over beskyttede navn.
- b) Indeholder mere end 18 karakterer (mellemrum inkluderet).
- c) Bæres af kendte personer medmindre, at skriftlig godkendelse foreligger fra denne person eller dennes familie. Reklame med kommercielt indhold medmindre, at speciel tilladelse er indhentet fra rettighedshaver.
- d) Efterfølges af tal.
- e) Kun er sammensat af initialer eller inkluderer tal, bindestreg, punktum, komma, tegn, udråbstegn, anførselstegn, kolon, semikolon, delingstegn og skråstreg.
- f) Virker upassende eller stødende, eller navn som anses at være vulgære eller fornærmende, eller navn som virker stødende overfor religiøse, politiske og etniske grupperinger.
- g) Kan skabe forvirring med hensyn til væddeløb eller spil.
- h) I udtale ligner et beskyttet navn eller navn, som er registreret på en anden hest født indenfor de seneste ti år.
- i) Allerede er registreret for søskende eller forældre til hesten.

7.5 Reklamenavn eller firmanavn kan godkendes under forudsætning af, at skriftlig tilladelse er givet af rettighedshaver.

7.6 Ønskes navneændring på en hest, skal ansøgning rettes til Dansk Galop. Navneændring tillades ikke for:

- a) Heste som har været starterklæret
- b) Heste hvis navn allerede har været publiceret i løbsprogram i Danmark eller i udlandet.
- c) Heste som har været anvendt i avlen.

7.7 Ved navngivning eller navneændring af udenlandskfødt hest, skal navnet godkendes i det land, hvor hesten er født. For heste, som importeres til Danmark - også heste som får status som danskopdrættede, skal navnet godkendes i det land, hvor hesten er født. Ansøgning om navn skal ske gennem den godkendte stambogsorganisation i det land, som hesten opholder sig i.

7.8 Gebyr for navngivning eller navneændring af indregistrerede heste fastsættes af Dansk Galop.

## **8. Eksport**

8.1 Hvis en hest eksporteres eller rejser ud af Danmark til bedækning i udlandet, skal ejer eller dennes befuldmægtigede ansøge Dansk Galop om eksport/midlertidig udførsel før hesten rejser.

Hvis eksporten er permanent dvs. at udlandsopholdet skal vare i mere end 9 måneder for et avlsdyr skal der udstedes et eksportcertifikat, som oversendes af Dansk Galop til stambogsmyndigheden i det land, som hesten eksporteres til. Hesten mister derved sin status som danskregistreret.

## **9. Definition på danskopdrættet**

Som danskopdrættet hest betragtes:

9.1 Føl født i Danmark af på folingstidspunktet hér registreret hoppe, og som derefter har opholdt sig i Danmark indtil 1. juni det følgende år.

Føl født i udlandet af danskregistreret hoppe, og som indføres til Danmark inden 31. december i fødselsåret samt opholder sig i Danmark indtil 1. juni det følgende år under forudsætning af:

- a) at føllet er indregistreret i det land, hvor hesten er født. Dette indebærer, at ansøgning om indregistrering er sendt til stambogsorganisationen i fødselslandet sammen med markings, samt at der er taget hår- eller blodprøve med henblik på DNA-test og at føllet er microchippet.
- b) at det ved føllets tilbagekomst til Norge straks sendes søges om indregistrering hos Dansk Galop sammen med føllets aftegn (markings) lavet af veterinær.
- c) at et eksportcertifikat og pas fra stambogsorganisationen i det land, hvor hesten er født, er sendt til Dansk Galop.

9.2 Føl født i Danmark af danskregistreret hoppe kan i fødselsåret sendes til udlandet sammen med føllets mor uden at miste sin status som danskopdrættet under forudsætning af:

a) At opdrætteren sender ansøgning om midlertidig udførsel af hoppen og føllet i god tid før udrejse, og at veterinær tager aftegn (markings) og hår- eller blodprøve prøv af føllet.

b) At føllet returnerer til Danmark før 31. december i fødselsåret.

c) At opdrætter ansøger om indregistrering af føllet straks efter, at føllet er returneret til Danmark.

d) At føllet forbliver i Danmark indtil 1. juni det følgende år.

9.3 Som Skandinaviskopdrættet hest betragtes alle heste, som er født og registreret i et af de skandinaviske land, og som ifølge dokumentation har opholdt sig i et af de skandinaviske land indtil 1. juni det påfølgende år. (Som skandinaviske lande betragtes Norge, Sverige, Danmark).

# Stud Book Rules

## **Definition of a thoroughbred**

A Thoroughbred is a horse which is recorded in the Thoroughbred Stud Book of the country of its foaling, that Stud Book having been granted Approved status by the International Stud Book at the time of its official recording.

## **1. Thoroughbred pedigree qualification**

1.1 For a horse to be eligible to be registered as a Thoroughbred in the Danish Stud Book the following requirements must be met:

1.1.1 The horse must be the product of a mating between a sire and a dam, both of which are recorded in an approved Thoroughbred Stud Book or either or both must have been promoted from a Non-Thoroughbred register under the terms set out in Article 13 paragraph 4.1 of the International Agreement on Breeding, Racing and Wagering.

1.1.2 A foal may be promoted from the Non Thoroughbred Register (B-Register) published by the Norwegian Stud Book when the following conditions are all satisfied:

The horse can prove satisfactorily eight consecutive crosses with "Thoroughbred" including the cross of which it is the progeny.

The horse can show in its pedigree, such performances in racing open to thoroughbreds as to warrant its assimilation with them.

The promotion is approved by the unanimous agreement of the International Stud Book Committee.

1.1.3 Animals which do not qualify registered in The Danish Studbook can be registered in Danish Jockey Club's B-Registry the "Non Thoroughbred Registry".

### ***B: DISQUALIFICATION***

*Modification of the heritable genome of a prospective or registered Thoroughbred, during its conception, gestation or at any stage thereafter in its existence, will result in that horse forfeiting its status as a Thoroughbred.*

## **2. Broodmare / stallion registration**

### **2.1 Identity verification**

Before any stallion or mare can be registered in the Danish Stud Book as breeding stock the animal's identity must be established.

a) By the completion by the animal's owner of the appropriate stallion or broodmare registration form, recording the animal's registered name, colour, markings, age, pedigree, present owner, and previous history.

b) By tracing the animal through all its ownerships since birth.

c) By establishing the DNA-profile of the animal. In respect of all breeding animals, this will require a hair sample taken by a veterinarian surgeon from the tail of the foal, and the dams DNA-profile unless her DNA-profile has previously been officially established.

In the case of imported animals an export certificate identifying the animal must be received from the stud book authority of the animal's country of birth. For imported animals visiting Denmark for less than nine months, the requirements for the provision of an export certificate may be replaced by the lodgement of the animal's identity documents issued by the Stud Book Authority with which it was registered at birth.

d) Any owner sending a stallion or a mare abroad for breeding purposes must inform in advance the Stud Book Authority of the country where the animal is standing at time of exportation, supplying the relevant details and requesting that this Stud Book Authority sends directly a Breeding Clearance Notification (BCN) by mail or fax to the Stud Book Authority of the country of final destination, transmitting the DNA certificate for the horse and, for pregnant mares, the DNA certificate(s) for the covering stallion(s). A certified copy of the clearance should be delivered to the applicant for insertion into the relevant passport.

Before returning the owner of the horse should apply to the Stud Book Authority of the country of temporary residence for a further clearance to be supplied to the Stud Book Authority of the country of permanent residence providing the details as stated above.

The clearance is valid for:

- 1) One breeding season (9 months maximum)
- 2) One country of destination

Any failure in the above detailed process could be detrimental to the breeding and or racing status of the breeding stock, including the relevant foals, and will therefore necessitate the transfer of the Export Certificate for guarantee the traceability of movements.

## 2.2 Breeder

For the purpose of these regulations, the breeder is the person or entity who has been recorded as being the owner of the mare at the time that her foal was dropped.

## 3. Covering certificates

3.1 Covering certificates are issued by the Danish Jockey Club for each stallion when it is registered for breeding. Negative tests for EVA and CEM must be available.

3.2 Stallion owners are required:

a) To enter on the certificate the details of every mare covering by their stallion in the season. In particular, if a mare is covered by more than one stallion, a separate certificate must be made for each stallion.

b) To issue a covering certificate to the owner of each mare covered by their stallion.

To return the completed counterfoils (i.e. one copy of the covering certificate to The Danish Jockey Club by September 1st.

## 4. Foal registration

### 4.1 Foal registration requirements

For registration of the produce, the following must all be received from the breeder:

The thoroughbred must be the result of a stallions mating with a mare, which is the physical mounting of a mare by a stallion with intromission of the penis and ejaculation of semen into the reproductive tract. As an aid to the mating and if authorized by the Stud Book Authority of a country certifying the thoroughbred, a portion of the ejaculate produced by the stallion during such mating may immediately be placed in the reproductive tract of the mare being bred.

An official certificate of covering, signed by the stallion owner, confirming the first and last dates of service in the previous year, the stallion owner's satisfaction as to the correct identity of the mare, and that the mare was served naturally and that artificial insemination was not used, and that a natural gestation took place in and delivery was from the body of the same mare in which the foal was conceived. Any foal resulting from or produced by the process of artificial insemination, embryo transfer or transplant, cloning or any other form of genetic manipulation not herein specified shall not be eligible for recording in a Thoroughbred Stud Book approved by The International Stud Book Committee.

An official form "Return of mares" signed by the breeder, giving the required details of the produce, namely the colour, sex, date and place of birth.

In the event of no live produce the official form must still be completed indicating whether the mare was barren, aborted early, slipped or that the produce was born dead or has died. Failure to report this information will result in the term "no return" appearing on the mare's produce line. This detracts from the completeness, and thus the value of the information in the Danish Stud Book.

A formal application form to register the animal stating the parentage, colour, sex and date of birth of the produce, prepared by the breeder, and showing a written and graphic description of the markings of the produce, prepared, signed and dated by a veterinary surgeon.

*Markings should be taken whilst the foal is under its dam before October 1st in the year of birth and as near to this date as possible.*

A veterinarian samples hair from the animals tail and where necessary from the mare and stallion, and forward this to The Veterinarian Institute to determine that the mare and stallion qualify as the parents of the foals by DNA parentage validation.

f) Payment of the foal registration fee.

The above requirements apply to produce which are registered in their year of foaling.

#### 4.1.1 Late returns

For the produce whose registration is not sought or completed until after October 1st in their year of foaling, in addition to the above the following will apply.

- a) The foal identification certificate must be supported by independent statements given by a veterinary surgeon to establish the identity of the produce beyond all doubt.
- b) The fee at the then current rate for late foal registration must be paid.

No application to register produce can be considered for produce which are four years or over at the time of application.

#### 4.2 Service to produce an eligible foal

A foal is not eligible to be registered in the Danish Stud Book unless:

- a) It is the product of a natural service or covering which is the physical mounting of a mare by a stallion with intromission of the penis and ejaculation of semen into the reproductive tract. A portion of the ejaculate produced by the stallion during such mating may immediately be placed in the reproductive tract of the mare being bred.
- b) A natural gestation took place in, and delivery was from, the body of the mare in which the foal was conceived. Any foal resulting from, or produced by, the process of artificial insemination, embryo transfer or transplant, cloning or any other form of genetic manipulation not herein specified shall not be eligible for recording in a Thoroughbred Stud Book approved by The International Stud Book Committee.

#### 4.3 Reported coat colours and gestation periods

Notwithstanding that a complete return must be made for a foal, and that the foal may qualify by DNA parentage verification of being the progeny of its stated parents, the application to register the foal may be refused either if its reported coat colour is inconsistent with the registered coat colour for its stated parents, or if the reported gestation period of its dam is significantly at variance with generally accepted limits.

### **5. Issue of passports**

A passport will be issued for every foal whose birth is registered with the Danish Stud Book. While the passport remains the property of The Danish Jockey Club it must accompany the horse at all times. It is also the responsibility of all owners, breeders and trainers to use the passport to check the identity of each horse in their care, and to sign the relevant page in the passport to signify that the identity has been confirmed. Any identity doubt should be reported to The Danish Jockey Club immediately.

5.2 Any loss must be reported to The Danish Jockey Club immediately.

5.3 Passports are the property of The Danish Jockey Club and must be returned on demand.

### **6. DNA-typing**

6.1 The laboratory officially designated to carry out DNA typing for the Danish Stud Book: DNA Laboratoriet Heste, Them, Denmark.

6.2 For the purpose of these regulations an animal's DNA type will not be considered to be officially established unless either it has been established by the above laboratory, based on hair or

blood samples submitted to that laboratory, and notified to the Danish Jockey Club or in certain circumstances, it has been established by the officially designated laboratory of an approved Stud Book Authority overseas.

The circumstances under which DNA or blood types established by overseas laboratories as above will be accepted are:

- a) If the animal concerned has died before a valid hair or blood sample could reasonably have been taken from it, to establish the DNA type of an imported broodmare or stallion, (see 2.1.c).
- b) In the case of stallions only, for the purpose of parentage testing a foal conceived abroad and imported in utero, (see 4.1. d), provided that the hair or blood type so established and notified to The Norwegian Jockey Club is considered sufficiently comprehensive for the purpose.

## **7. Naming of horses**

The Registration of a name for a horse can only be made by or with approval of the recognized Authority of its country of birth.

7.1. An application for a name for a horse must state the colour, sex and age together with the registered name of the sire and dam. Such applications will not be accepted for registration unless the horse has been accepted for inclusion in the Norwegian Stud Book or in a stud book approved by the International Stud Book Committee.

Translation of a foreign name applied for may be requested.

For Danish born horses a name must also be approved by the Stud Book Authorities in the other Scandinavian countries (i.e. Sweden, Norway).

The suffix between brackets is taken from the International Code of Suffixes and constitutes part of the animal's registered names.

7.2 A horse may not be entered to race or be used for breeding unless it has a name registered with the Danish Jockey Club.

7.3 The criteria for making names re-available are as follows:

- a) stallions; 15 year after death or 15 years after being out of stud, (whichever is the soonest) or at 35 years of age, if death not reported.
- b) mares, 10 years after death or 10 years after the last year of covering or foaling, (whichever is the soonest) or at 30 years of age, if death not reported.
- c) other horses, 5 years after death or at 20 years of age, (whichever is the soonest) if death not reported. An exception may be made where the name of a horse which has been reported as dead and has not raced is sought for re-use by the same applicant.

7.4 The following restrictions on the registration of names shall apply:

- a) Names on the international list of protected names.
- b) Names of more than 18 characters, signs or spaces.

- c) The name of a public person, unless written permission is given by the person concerned or their family, or names of commercial significance without the appropriate permission.
- d) The name whose spelling or pronunciation is close to a name already registered and whose year of foaling is within ten years of that of the horse in question.
- e) Names followed by initials or numbers or names that start with a sign other than a letter.
- f) Names made up entirely of initials or include figures, hyphens, full stops, commas, signs, exclamation marks, inverted commas, forward or backslash, colon and semi-colon.
- g) Names that are suggestive or have a vulgar, obscene or insulting meaning; names considered in poor taste, or names that may be offensive to religious, political or ethnic groups.
- h) Names which would cause confusion in the administration of racing or betting.
- i) Names that are already registered to a sibling or parent of the horse in question.

7.5 Names which would act as an advertisement for a company or product will be accepted with the written approval of the Company or Body associated with the name.

7.6 An application for a change of name shall be directed to The Danish Jockey Club.

A name may not be changed for any horse

- a) who has been declared to run
- b) or for a horse that has already bred
- c) or for a horse whose name has already been published in a race card in Denmark or abroad.

7.7 Name or change of name for a horse born abroad, must be approved by the Recognized Turf Authority in the country of birth.

7.8 The fee at the then current rate for naming or change of a horse's name is decided by The Danish Jockey Club.

## **8. Exportation of horses**

8.1 The owner or his agent of a horse to be exported must apply on the official form, should the export be permanent (if the stay abroad is to be in excess of nine months for a stud animal) for the issue or endorsement of an Export Certificate.
